FEBRUARY 2018 ISSUE • PEP MEMBER NEWS

BIOREMEDIATION | NEW MEMBERS | PEP AWARDS | EVENTS

Dear PEP Member,

It's been a busy start to the year as we have been planning our calendar of events for 2018! In addition to our bi-monthly breakfasts and lunch and learn presentations, we hope you will mark your calendar for the *Annual Meeting and Environmental Stewardship Awards* on April 17 and the *18th Annual Golf Tournament* on May 4. All of these events are outlined in detail below and on our website.

I encourage you to take a moment to nominate a PEP Member for the Environmental Stewardship Awards. No business or project is too small. Simply complete the [Nomination Form](#) and return to me by March 9.

At our last PEP Membership Breakfast we heard an interesting presentation regarding the benefits of Bioremediation from Bionetix International, Inc. I know some PEP members already use these types of “bugs” in your waste water treatment. I would love to hear from you as to how you are utilizing, or could potentially benefit from utilizing this organic solution for water, as well as other waste issues. Take a moment to read the article below.

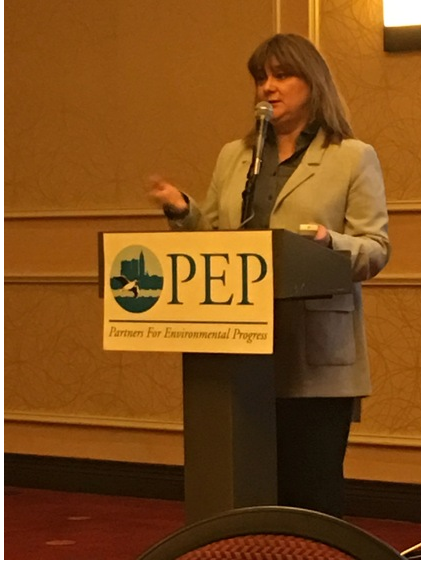

If you are looking for other ways to make an impact, we would welcome you to get involved with one of our committees. If you are interested in helping plan and execute the **Golf Tournament** or the **Reverse Trade Show**, please [email me](#).

Best Regards,

Jennifer Denson
Executive Director

[Bioremediation: Putting Good "Bugs" to Work for You](#)

At the January PEP Membership Breakfast, sponsored by SafetyPlus, Tonya Decterov from Bionetix International, Inc. discussed ways members can utilize bioremediation to solve environmental problems in a diversity of

environmentally-safe and cost-effective alternatives to traditional management programs such as expensive chemical or physical treatments. [Read the Full Article.](#)

Thank you to M2 Solutions, an expansion of Manufacturers Packaging, for flying Ms. Decterov from Canada to share her expertise with PEP members. M2 Solutions focuses on service life solutions for infrastructure, industrial and commercial repair solutions and as you will hear about today, biological solutions for industrial and commercial applications.

UPCOMING EVENTS

PEP Annual Meeting and Environmental Stewardship Awards Set for April 17

Make plans to attend PEP's Annual Meeting and Environmental Stewardship Awards to recognize PEP members whose work has made a significant and positive contribution to the Gulf Coast region in three crucial areas: *economic growth, environmental health, and social responsibility.*

[Read more about past award winners.](#)

Nominate someone today! No business or project is too small. The focus of the awards is on best practices and innovation, and not simply overall environmental impact. Quality, creativity and commitment count!

Nominations are open until March 9. [Nomination Application](#)
