**AUGUST 2019 ISSUE • PEP MEMBER NEWS**  
RANDSOM RECYCLE | UPCOMING EVENTS | NEW PEP MEMBERS

Dear PEP Member,

Many companies struggle with where and how to safely recycle old electronics – or e-waste – that seems to accumulate at a faster and faster pace and which can pose environmental hazards if not disposed of properly. That is why recycling old electronics is so important. Many old devices contain toxic substances that include lead, mercury, cadmium, beryllium, polyvinyl chloride and chromium. Plus, recycling old devices saves energy. It also means fewer raw materials need to be drawn from nature to create new devices, saving energy, reducing pollution and creating fewer greenhouse gas emissions. What is better than recycling? Recycling with a Purpose! Local non-profit Ransom Ministries has a new program that allows you to ...no charge, while providing individuals the opportunity to learn life skills and job skills. [Learn more about this program's positive affect on our community and how one PEP Member company has gotten involved.](#)

Are you interested in helping PEP plan and execute an electronics recycling event for business? If so, [please email me](#), and PEP will help coordinate.

Check out this month's **PEP Environmental Stewardship Award winner spotlight: Hargrove Engineers + Constructors**. Please take a moment to read these award summaries and appreciate the impact of their PEP Award-winning projects.

Best Regards,

Jennifer Denson  
Executive Director

## REVERSE TRADE SHOW

### 19th Annual Reverse Trade Show

Thursday, October 17th  
1:00pm - 4:30pm

Call on 45+ customers at one location in one afternoon  
Plus **FREE** educational seminars

[Sponsorships Available](#) • [Tickets on Sale NOW](#)

## ENVIRONMENTAL STEWARDSHIP

Hargrove  
Engineers +  
Constructors:  
Energy Efficiency  
Improvements:  
Kimberly-Clark

### Combined Heat-Power Plant

Hargrove Engineers + Constructors provided front-end planning and conceptual and detailed design to achieve Kimberly-Clark's goal to increase efficiency while lowering costs and emissions at Kimberly-Clark's Mobile Mill. [Learn more about the project by clicking this link.](#)
