## OCTOBER 2019 ISSUE | PEP MEMBER NEWS

RTS | PEP NEWS - SHORELINE EROSION | NEW PEP MEMBERS

### Dear PEP Members:

This is the last week for Advance Ticket Pricing for the 19th Annual Industrial Reverse Trade Show!

[Get your tickets now!](#)

Ticket price increases for PEP Members and Non Members after October 11. Our FREE Educational Seminar is scheduled for the morning of the Reverse Trade Show:

"Transportation & Logistics: Technology is Improving Capacity, Safety and Environmental Impacts while Facing Aging Infrastructure and Increased Tonnage."

[Register and see all the details here!](#)

We look forward to seeing all of our members on October 17th.

As always, we invite you to learn more about the work local corporations and PEP

member companies are doing to positively impact our Gulf Coast environment. This month we look at [PEP Member companies who are finding solutions to shoreline erosion](#) as well as how [Soterra is working with the Mobile Bay National Estuary Program to control stormwater runoff and water pollution.](#)

**Best Regards,**  
**Jennifer Denson**  
**Executive Director**

**Fort Whiting**

FREE and open to the public, registration required by email to [jdenson@pepmobile.org](mailto:jdenson@pepmobile.org).

## PEP NEWS

*PEP Members Spearhead Solutions to Shoreline Erosion*

Communities throughout the Gulf Coast face difficult decisions in how to best manage and adapt to shoreline erosion. Man-made disturbances, rising sea levels, and larger, more power storms have resulted in severe shoreline erosion over the past several decades.

Partners for Environmental Progress member organizations are stepping up to tackle these issues by protecting, enhancing, and restoring coastal habitats, the state's greatest economic and environmental asset. [Read the full article here.](#)

## ENVIRONMENTAL STEWARDSHIP

### *Soterra Rain Barrel Initiative*

Excessive storm water runoff can lead to water pollution which can have serious adverse effects on human health and the environment. In partnership with the parent company, Greif, the Mobile Bay National Estuary Program and Alabama Power, Soterra is working to minimize the negative impact that comes with heavy rainfall that often occurs in the Mobile area through the rain barrel initiative.
