

OCTOBER 2020 ISSUE | PEP MEMBER NEWS

Dear PEP Members:

Last month, the Board of Directors recognized the contributions of our innovative members at the 20th annual Membership Meeting and Environmental Awards presentation. The meeting and awards were presented in a virtual format on September 24, 2020. This year the [seven winning companies projects](#) represented a diversity of initiatives. The goal of our annual awards is to inspire more businesses to follow the example of these seven leaders. These companies are choosing to be more environmentally conscious and responsible.

During the annual Membership Meeting (see the video below), we re-elected the following members of the Board of Directors for another three-year term, including: Helen Bush (Evonik Corporation), Tom Damson (Long's Human Resource Services), Avalisha Fisher (Driven Engineering), Ritchie Hurt (Thompson Engineering), Beth Thomas (Alabama Power), Spencer Wiggins (Hancock Whitney Bank) and Mike Wilson (BASF). Former PEP Board President, Monica Garsed was honored with the Distinguished Service Award for her many contributions to the organization.

Please join us in congratulating our 2020 award recipients for their environmental stewardship along our Gulf Coast!

As always, thank you for your support!

Jennifer Denson
Executive Director

PEP EVENTS

PEP's VIRTUAL REVERSE TRADE SHOW

NOVEMBER 16th - 20th

PEP is excited to announce a NEW format for our popular Reverse Trade Show. PEP will match vendors and exhibitor companies (the traditional manufacturing and multi-disciplined engineering firms) for 10-minute face to face virtual meetings. Vendors will be able to choose the specific department or individual that is the best fir for their product or service.

We invite you to be part of this unique event the week of November 16 - 20, 2020. Evonik, Mitsubishi Polysilicon, BASF, Alabama Power, Huntington Ingalls, and Hargrove Engineers are just some of the companies that will be exhibitors in this new format.

PEP NEWS

The PEP Science and Technology Scholarship

The members of the PEP Board of Directors are excited to announce the 2020 PEP Scholarship Fund for employees of PEP member companies and their dependents.

Each year, PEP will award one \$2,500 scholarship to students who meet the scholarship criteria and are enrolled in a two or four year college or university pursuing a degree or advanced degree in environmental science, environmental planning, environmental engineering, marine science, geoscience, fisheries science, forestry or estuarine science management. [Click here to learn more and to apply!](#)

Trash Blows! Stow it!

PEP is working with the Mobile Bay National Estuary Program and Dog River Clear Water revival to educate local businesses and truck owners about the impact of truck bed trash becoming litter in our waterways. More on how you can pledge to not be part of the problem and ways business can help are coming soon.

Become An Entrapper!

Do you like to design solutions to everyday problems? Do you want to be an entrapper? Then check out the Truck Bed Trash Can Design Competition sponsored by the Mobile Bay NEP. [Click here for details!](#)
